

28 rock drill pressure regulating valve

Which lubricator is used in Rock Drill yt28?

The Rock Drill is equipped with lubricator FY200C. Secoroc YT28 is intended to be used together with pusher leg FT160BC and FT160BD for different tunneling and work conditions. It is also designed for dry drilling or wet drilling mounted on rigs. Specification Pneumatic rock drill YT28

How do you use a rock drill?

When you have finished drilling Run the rock drill at medium speed when retracting the working tool from the drilled hole. Lay down the rock drill on a stone, wooden plank or similar object, so as to prevent drill cuttings and other foreign matter from entering the chuck. Turn off the water pressure before the air pressure.

What pressure should a drill compressor be set to?

Air pressure Ensure that the compressor can deliver the required air pressure of 5 bar at the tool. h High pressure (>6.3 bar) causes rough operation and damage. h Low pressure (<4 bar) results in a slow drilling speed. Water pressure Make sure that the water pressure is set to around 3 bar. Note!

How do you re-start a rock drill?

If powerful blow-cleaning of the drill hole is required, turn the throttle lever fully backwards beyond the stop position for extra blowing, whereupon the rock drill stops. This can be done during drilling. When the drill hole is clean, turn the throttle lever forwards again to re-start the rock drill. 11 When you have finished drilling

If there is abnormal vibration in the oil inlet hose during the impact process of the hydraulic rock drill, and the inspection of the distribution valve is unsuccessful, ...

At Present, we are in cooperation with the biggest manufacturer of drilling rigs in China. Our products have been exported to more than sixty countries and different regions, such as ...

This document provides maintenance instructions for FlexiROC D50/D55/D60/D65 drill rigs. It includes sections on general safety and contact ...

Description The ABPR- series is a state-of-the-art automated back pressure regulator for single and multi-phase fluids. It allows stable pressure control up to 20,000 psi. The ABPR consists ...

Hydraulic Pressure Regulators Hunting's Subsea Pressure Regulators are specifically designed for use in subsea oilfield drilling control applications, ...

Troubleshooting We build our drills to perform in the toughest conditions day in and day out. But if problems occur, the troubleshooting chart below will help you pinpoint and resolve the most ...

28 rock drill pressure regulating valve

The document provides comprehensive instructions for operating and maintaining the Reimann & Georger Corporation Rock Drill, including safety guidelines, specifications, and troubleshooting ...

DRILL PANGOLIN; air pressure regulators are installed in Ingersoll Rand CM351 down the hole pneumatic crawler drilling rig. The reliable quality is proved in ...

Regarding the internal structural parameters of rock drills, research generally focuses on the study of reversing valves and piston diameters. 11 Song et al. 12 investigate ...

fPressure accumulator for hydraulic rock drill, maintenance instructions 3.9 Mounting the pressure accumulator on the rock drill Note! The positions of the HP and LP accumulators, related to ...

96000160 Pressure regulating valve 96000119 Expansion 96000118 Spring 96000157 Conical spring 96000167 Ratchet pawl 96000166 Large seal sleeve 96000544 Seal sleeve 96000543 ...

DRILL PANGOLIN pressure regulator vavle is installed in HAN-D50DTH down the hole pneumatic crawler drilling rig. It is studied from ...

This document provides instructions for repairing and maintaining pressure accumulators used in hydraulic rock drills. It describes how to check and fill the accumulators, remove them from the ...

Machine Type rock drill rig Parts Material rock drill Parts Processing Type rock drill Parts Use Well Drilling Warranty 3 months Weight (KG) 1 Place of Origin Shandong, China Video outgoing ...

Brands are for display purposes only. Delkom is an alternative spare part manufacturer of these brands and has no connection Home E-Commerce Pressure Regulator

Choose from our selection of pressure regulators, including pressure-regulating valves, tank-mount pressure-regulating valves, and more. Same and Next Day Delivery.

We produce the highest quality alternative spare parts in the world for Epiroc, Atlas Copco, Sandvik, Furukawa, Mine Master, Komatsu, Montabert, Soosan, Junjin, CAT etc. all drill rig ...

Secoroc YT28 is a heavy-duty pusher leg rock drill featuring high efficiency and low air consumption. It is primarily designed for drilling in mines, hydropower stations, and road ...

GEN2 Hydraulic Pilot Pressure Regulator Valve This GEN2 Pressure Regulator with tungsten carbide seal trim has been designed with the same footprint as the legacy Gilmore Hydraulic ...

If there is abnormal vibration in the oil inlet hose during the impact process of the hydraulic rock drill, and the inspection of the distribution valve is unsuccessful, it may be a problem with the ...

28 rock drill pressure regulating valve

Brands are for display purposes only. Delkom is an alternative spare part manufacturer of these brands and has no connection Home E-Commerce Pressure Reducing Valve

a fluid operated percussive toolthe combination of a fluid operated rotation inotor, a valve casing having a supply passage leading to the motor, a valve adapted to automatically vary the ...

Pressure regulators play a critical role in ensuring the safe and efficient operation of equipment and processes in the oil and gas industry. From drilling to ...

The Sandvik / Tamrock 138 298 28 Pressure relief valve assembly is a high-quality aftermarket replacement designed and fully compatible with ranger 500 Surface Drill Rig Model. This part ...

A pneumatically operated percussion rock drill including means for supplying cleaning water to the bore hole comprises a compressed air throttle valve 28 and a water pressure regulating...
