How much does an AC compressor cost?

AC compressor prices are \$400 to \$1,300 for the unit alone, depending on the size, type, and brand. The labor cost to replace a compressor is \$600 to \$1,200. Replacing the whole AC unit or heat pump is sometimes more cost-effective than replacing a compressor out of warranty.

How much does a single stage AC compressor cost?

Single-stage AC compressors are the most basic option available, which also makes them the most affordable to repair or replace. This type of AC compressor can only operate at one speed, instead of having a high, low, or variable setting. Plan to spend about \$250 to \$1,200 to replace a single-stage AC compressor.

How much does a window AC compressor cost?

Window AC: Compressors for window AC units can cost between \$150 and \$700. This is almost equal to the price of a completely new window air conditioner. We recommend you buy a new AC unit if your window AC compressor fails. Mini-split: To replace a mini-split air conditioner compressor, the labor and parts generally cost between \$600 and \$2,200.

How much does a rotary air compressor cost?

Example: Rotary 1-stage compressor for 2-ton AC unit might cost \$800 while inverter variable-speed compressor with same 2-ton AC capacity costs \$1,200. Tertiary, the price of compressors also depends on refrigerant type a bit. For example, the R22 AC compressor cost can be a few % higher than the cost of the R410A AC compressor.

How much does it cost to replace air compressor?

Replacing a central air compressor or mini-split AC unit compressor costs \$1,000 to \$2,500, including installation costs. A whole new window AC unit costs \$150 to \$700, which is about the same as the cost to replace the unit's compressor. Replacing a heat pump compressor costs \$1,000 to \$2,500 for parts and labor if not under warranty.

Do I have to pay for AC compressor & parts?
