

## Cooper drilling rig in suriname

Will Petronas develop liquefied natural gas in Suriname?

The Malaysian state-controlled company is considering an integrated development using a floating liquefied natural gas solution. Drilling will target Block 52, which spans 4,749 square kilometers north of Suriname's coast. In 2020, Petronas made a gas discovery in the block with the Sloanea-1 exploration well.

How much did GranMorgu pay Saipem & SBM Offshore?

In early November, the GranMorgu partners awarded Saipem a \$1.9 billion contract for the project's subsea development. Also, SBM Offshore was awarded a contract for construction and installation of GranMorgu's floating production, storage and offshore vessel, whose capacity is targeted at 220,000 b/d.

What is GranMorgu oil project?

Their \$10.5 billion project, named GranMorgu, will develop 750 million barrels from the Sapakara and Krabdagu oil discoveries, 150 kilometers off Suriname's coast. The two oil fields are in water depths ranging from 325 to 3,250 feet deep. First oil from the project is targeted for 2028.
