

## Drilling rig casing in netherlands

Can a land rig trip in and out of a hole?

The land rigs are already able to trip in and out of the hole fully automatically, without the need for any people on the drill floor. Huisman offers complete drilling packages and is dedicated to explore and realise new solutions to improve drilling operations.

What makes Holland drilling unique?

What makes these machines unique is their exceptional compactness. Holland Drilling has the most compact 45- and 80-ton drill rig on the market and can therefore reach locations that are inaccessible to others. We use the most modern technology for plotting and measuring the bore and locating the existing cables and pipes.

What is a LOC 250 rig?

The LOC 250, Huisman's first land drilling rig was introduced in 2005 and designed to take advantage of emerging Casing While Drilling technology to reduce the costs as well as the environmental impact of drilling a well.

How many HDD drilling rigs are there?

The fleet includes eight HDD drilling rigs with a capacity of 2.5 to 80 tons, with which lengths up to 1,000 meters and diameters up to 900 mm can be realized. What makes these machines unique is their exceptional compactness.
