

The crawler-based drilling rig and its trailer-based support unit are specially designed for underground use and enable autonomous positioning of the DHBM. The powerful full face ...

For efficiency reasons, the drilling site and the geothermal plant should be located near populated areas, whose buildings will be heated with the generated thermal energy. Herrenknecht's deep ...

With horizontal directional drilling rigs from Herrenknecht, pipelines and protective pipes can be installed under rivers and infrastructures quickly, cost-effectively and with minimal impact on ...

With horizontal directional drilling rigs from Herrenknecht, pipelines can be installed under rivers and infrastructures quickly, economically and with minimal impact on the environment. ...

Automated Rig Technology The exploration of new energy deposits is one of the global challenges for future energy supply. Whether the development of onshore and offshore oil and ...

Optimized technology based on proven Herrenknecht solutions Herrenknecht has been using customized drilling rigs for rock support or geological exploration in tunnel boring machines of ...

When operating the rotary drilling rig for piling operations, ensure that the swivel is correctly and firmly connected to the kelly bar and wire rope. When lifting ...

Herrenknecht Vertical is supplying the first deep drilling rig - known as the "Innovative Hydraulic Rig" - to China. The rig's high level of automation allows precise and ...

The operation of the rigs, however, poses specific demands on the environment and the surroundings. As a Your contact person subsidiary of Herrenknecht AG, Herrenknecht Vertical ...

As a Your contact person subsidiary of Herrenknecht AG, Herrenknecht Vertical specializes in the construction of deep drilling rigs, which are individually designed and manufactured to ...

Bavarian Molasse / Northern German basin, Germany Herrenknecht Vertical deep drilling rigs have a great track record in geothermal energy. Customers' drilling crews have produced ...

Deep Drilling Rigs SDD-Rig Menu / Additional equipment Additional equipment Products Tunnel Enlargement System (TES) Navigation and monitoring Process data management Seismic ...

The rock support anchors can be placed with the drilling rigs directly behind the shield area. This means that

Drilling rig swivel by herrenknecht

they provide the basis for the accurate and fast fixing of the steel mats for ...

Self-erecting rig with integrated adjustable hydraulic supports, no need for a crane for setting up the rig. Set up time (connecting all modules) less than one hour. ...

Hydraulically driven top drive made by Herrenknecht Vertical with very low noise level and easy rig up Rig floor with handrails by default; windwalls optional 10K BOP stack possible

The innovative deep drilling rigs made by Herrenknecht Vertical have several advantages in comparison to conventional rigs, both for exploratory drills in oil and gas fields and for deep ...

SDD-Rigs von Herrenknecht vereinen die Technologie und Vorteile der bewährten Verfahren Horizontal Directional Drilling (HDD) und Vertical Directional Drilling (VDD). Bei beiden ...

Supported by a Pipe Thruster, two Herrenknecht HDD Rigs drilled a total of nine landing drills with lengths between 450 and 520 meters and diameters of eight to 34 inches. The drills form one ...

Combined with various masts and substructures, our adaptable onshore rigs enable efficient drilling in both remote and built-up areas, for quick, standardized wells with frequent rig moves, ...

With horizontal directional drilling technology from Herrenknecht, pipelines can be installed rapidly, economically, and with minimized impact on the environment and existing ...

Application of SDD rigs Herrenknecht's Slant Directional Drilling rigs (SDD) combine the advantages of two drilling methods that have proven themselves for years. With the specially ...

Herrenknecht Maxi-Rig (2014) Hadlee & Brunton have a custom-built 175T Maxi-rig from Herrenknecht which is one of the most advanced pieces of equipment for horizontal directional ...

The epoch-making Gotthard Base Tunnel, the new diameter world record of 15.43 meters in Shanghai, the first geothermal deep drilling rig or the innovative Direct Pipe method - ...

In addition to oil and gas projects, the strengths of Herrenknecht's SDD rigs come to the fore wherever drilling projects require entry angles to be flexibly adapted specifically to the project: ...

This document provides information about horizontal directional drilling (HDD) and the equipment used, including drill rigs from Herrenknecht AG. HDD involves ...

Herrenknecht Vertical is a German manufacturer of onshore and offshore drilling rigs and equipment. Our automated drilling technology enables contractors ...

Drilling rig swivel by herrenknecht

The Raise Boring Rig"s developed by Herrenknecht are designed for the construction of shafts in rock down to 2,000 meters in depth and up to 8 meters in diameter. The compact design offers ...

RIG INFORMATION Arverne Drilling Services B04 rig is a deep drilling rig terra invader 450 box-on-box, designed and manufactured by Herrenknecht Vertical GmbH according to European ...
