

High-efficiency Epiroc rock drill

Product description The new, efficient SmartROC D60 consistently delivers high-quality blastholes with accuracy and precision. It is loaded with smart features ...

Epiroc is a one of the leading drill rig manufacturers in the world. We offer rock drilling machines and other equipment for many different applications. For ...

The drill features a frequency of 50 Hz which gives higher performance in hard rock conditions. The SC19 rock drill is also fitted with a dual damper which helps to improve energy ...

Hc109 Drifter High-Efficiency Hydraulic Rock Drill Underground Rock Mining Drilling Machine, Find Details and Price about Jumbo Drill 3 Boom Epiroc Epiroc Xe3 C30 Tmg1 Hc109 Drifter ...

Epiroc has released a new generation of the class-leading SmartROC C50, one of its rigs that uses its innovative COPROD rock drilling ...

Drill strings for multiple applications The Epiroc SR drill string family are developed for underground rock excavation and surface drilling projects, where there is a demand for high ...

Experience a revolution in drilling efficiency with the Epiroc QL Series, delivering unrivaled power in Down-the-Hole (DTH) applications. Designed for general-purpose use in exploration, ...

The FlexiROC D65 surface drill rig from Epiroc is the perfect balance between productivity and efficiency. A proven and dependable rig for DTH drilling in mining and large quarry ...

Thanks to the newly-developed rock drill COP 3060, the PowerROC T50 provides high penetration rates. Meanwhile, the perfectly matched engine in either Tier 3 or Tier 4 provides ...

Keystone Drill is a distributor and manufacturer of hammer drills and drill rigs for the oil and gas field, construction field and mining field.

Over the years, we have set the standard on many Horizontal Directional Drilling projects involving hard rock and difficult conditions. You can rely on our ...

Each one of our products are designed for optimum performance in both handheld and mechanized rock drilling applications on a price vs. performance basis. We offer high quality ...

The Epiroc SR drill string family are developed for underground rock excavation and surface drilling projects,

High-efficiency Epiroc rock drill

where there is a demand for high quality of bolting and drifting equipment.

Epiroc's drilling rigs offer a variety of feed lengths, positioning configurations, rock drills, and optional automated features for underground production drilling and ...

All vital functions are at your fingertips for excellent drilling control. Because we understand that long work shifts can drain an operator's energy and ...

Epiroc is a global productivity partner for mining and construction customers, and accelerates the transformation toward a sustainable society. With ground-breaking technology, ...

The series of drills, COP SC16, COP SC19 and COP SC25, are developed with Epiroc's latest technology and feature several improvements. ...

The Epiroc ET66, ET45 and ET38 drill strings are available now. Integrating it with existing Epiroc drill rig fleets significantly boost operational efficiency in all areas of operation. ...

Providing high-quality drilling results, the RD14U Rock Drill enables users to minimize costs and enhance operational efficiency. This powerful and innovative rock drilling unit is a great option ...

A giant of high penetration Boomer XL3 D is a high efficient three-boom pilot-hydraulic controlled face drill-ing rig, fulfilling all range large site underground applications with high productiv-ity ...

Whatever the rock conditions, the PowerROC T35 helps ensure a high penetration rate and keep the cost of consumables low. The COP Logic system works in combination with a COP rock ...

The RD14U Rock Drill is an industry-leading hydraulic rock drilling unit. Known for its high performance and reliability, this device is the perfect solution for meeting drilling needs in the ...

For power and productivity Face drill rigs in the Boomer E3 and E4 series have extensive coverage areas of up to 205 m², making them the perfect choice for construction projects. ...

The ET drill strings, based on a high-precision tube-drilling system from Epiroc, enhance durability and efficiency for the drill rig's vital component - the drill ...

"The unification of the two brands is set to produce high-tech ground support solutions that will change the way safety in mining is ...

The Epiroc SmartROC D65 is built to face the toughest of conditions. It's loaded with intelligent features that will improve your operations, increase safety, and ...

High-efficiency Epiroc rock drill

Epiroc is a global productivity partner for mining and construction customers, and accelerates the transformation toward a sustainable society. ...

Boost drilling efficiency with Epiroc's high-performance rock drilling tools in the UAE. Superior hole quality, durability & cost-effective results.

Epiroc tapered drill strings Maximizing productivity and minimizing costs Drilling economy - Years of expertise ensure our tapered drilling equipment delivers the lowest cost per meter Less ...

The PowerROC control system on PowerROC T35, developed by Epiroc, matching with Epiroc's COP Logic, maximizes the energy transmission between the drill bit and the rock, ...

We take this experience, our material know-how, and the finest simulation equipment to the lab - to develop the most effective rock drilling tools ...

The ET drill strings, based on a high-precision tube-drilling system from Epiroc, enhance durability and efficiency for the drill rig's vital component - the drill string. Perfectly integrated with other ...

Epiroc has partnered with Fortescue in Western Australia to test and evaluate the autonomous SmartROC D65 MKII. The surface drill rig has shown outstanding results during the testing ...
