

Marine drilling rig in comoros

Does SP offshore work in the Comoros?

AGR remarks that SP Offshore, through its subsidiary SPO E&P (Comoros) SARL, works exclusively for Western Energy (USA) and Safari Petroleum plc (Jersey) in the territorial waters of the Comoros.

What does AGR & SP offshore do?

The Norwegian AGR and SP Offshore have entered into a Memorandum of Understanding (MoU) under which AGR will provide a range of exploration services and the drilling of an ultra-deepwater (UDW) well off the Comoros Islands.

Where are the Comoros Islands located?

The Comoros Islands rise to the surface as atolls from water 3,000m deep, 300 km east of Mozambique. Oxy's Area 1 (blue) and ExxonMobil's Area 4 (red) in Mozambique each have 75 Tcf gas reserves west of Tullow Petroleum's (orange) and Western Energy East Africa's (yellow) Comoros blocks. Yellow line shows location of seismic overleaf.

Who won a production sharing contract in the Comoros?

According to AGR, Western Energy East Africa LTD (Western) & Safari Petroleum Indian Ocean Limited (Safari) were awarded a Production Sharing Contract in blocks 38, 39, and 40 in the Comoros in March 2014.

Why are Comoros interested in the Mozambique Channel?

So when Comoros witnessed billions of dollars in major new investments being made over the past decade in the Mozambique Channel only 300 km away, which led to world-class gas discoveries totalling 200 Tcf gas reserves in Mozambique and Tanzania, interest in the Comoros began to stir.

Are Comoros igneous rocks age Miocene?

The igneous rocks in the Comoros Islands and surrounding seas are aged Miocene to present, which coincides with the onset of the East Africa Rift System, when asymmetric onshore rifts hosting deep anoxic lakes with Type I source rocks began developing.

Explore ARO Drilling's fleet of owned offshore drilling rigs, including specifications, capabilities, and technical details of our state-of-the-art equipment.

Gregg Drilling is a leading expert in marine drilling and geotechnical investigation. We own and operate an extensive array of over water platforms and marine testing equipment allowing us ...

The purpose of this study is to assess the suitability of existing port, roading, plant and utility infrastructure on Comoros in order to assess the viability and costs for accessing drilling ...
