

Rock drill breaker mobile with new

What is a mobile rockbreaker?

Astec's Series of Mobile Rockbreakers are a heavy duty, low profile vehicle. Designed for breaking oversized rocks during underground work. Reach best breaker performance with the help of four hydraulic stabilizers. Capable of levelling the machine on any ground condition.

Why should you use a mobile rock breaker?

Our mobile rock breakers quickly reduce oversize at grizzlies, stopes and draw points without explosives - improving safety, productivity and profitability. Its heavy-duty, large cross-section boom provides excellent dexterity and strength when raking and breaking oversize material.

What is a Maclean mobile rock breaker?

The MacLean mobile rock breaker is the latest addition to the MacLean fleet of ore flow equipment and, with it, companies now have a one-stop solution for all their block cave mine production needs.

What equipment attachments does Breakers/drill North America offer?

Breakers/Drill North America provides a diverse range of construction equipment attachments, including Pedestal Booms, Hydraulic Compactors, and Rock Grinders. At Breakers Drills America, we are committed to delivering top-quality drilling and rock breaking solutions.

Why should you choose BTI mobile rockbreakers?

All hydraulic boom cylinders are equipped with oversized rods and self-aligning bushings at each end to prevent side loading of the cylinders during raking and breaking operations. BTi Mobile Rockbreakers are a tried & tested solution for crushing large rock walls and getting the performance you need to get it done.
