

The CYTJ45 The mining hydraulic tunneling rock drilling trolley, CYTJ45, is a state-of-the-art, four-wheel drive rock drilling system featuring a versatile telescopic boom. It is ...

Increase operational efficiency in mining with cutting-edge rock drilling trolley that meets the demands of tough conditions and sustained usage.

XTD3130 (TZ3A) Three arm rock drilling trolley Product Introduction The XTD3130 (TZ3A) three arm rock drilling rig is mainly used for excavation and construction operations in tunnels, ...

The self-developed and produced CMJ1-14 (DT1-14) crawler-type single-arm excavation trolley is used for blasting holes and bolt holes in roadways, tunnel excavation and other fields of coal ...

Xiongtai Rig can design and customise our drill rigs to suit your specifications with our in-house engineering and drafting team, including operation and spare parts manuals.

The DEWALT 20V Powered Water Tank (Tool Only) is the convenient, portable way to provide a non-potable water supply to the jobsite. The 4 gallon (15 liter) tank provides water based dust ...

Real-time drilling depth detection allows operators to closely monitor drilling data, while water pump flow and pressure monitoring protect against potential damage and prevent ...

This 4gal (16L) Pressurized Water Tank is a manually-pressurized water supply for Electric core drills to cool core bits and flush away cuttings during concrete ...

The Unsung Hero of the Drilling Rig: The Water Tank Deep beneath the surface lies a vast world of energy, but unlocking it requires more than just powerful drilling rigs. A vital component of ...

Unlock the secrets of water well drilling rigs! Learn about their components, operation, and how to choose the right one for your needs.

This paper mainly studies the application of three-arm rock drilling trolley in tunnel excavation. Firstly, the basic structure and working principle of ...

The CYTJ45 mining hydraulic tunneling rock drilling trolley is a four-wheel drive rock drilling system with a telescopic boom, which meets the ...

The DEWALT 20V Powered Water Tank (Tool Only) is the convenient, portable way to provide a

Xintong trolley rock drill water tank

non-potable water supply to the jobsite. The 4 gallon (15 liter) ...

The Norton Water Pressure Tank for Core Drill Rigs is a must-have. This four-gallon tank is constructed of metal and comes complete with all the fittings needed for installation.

The JWC-25 is Trolley Mounted DTHR Water Well Drilling Rig especially designed for water well drilling up to 650 feet (200 Meters) for a drill diameter of 6" (165 mm).

ABOUT US Shenzhen TANK Drilling Technology & Equipment Co., Ltd. --- Pioneering Precision in Rock Drilling Solutions. TANK specializes in the research and production of rock drilling ...

The XTD3130 (TZ3A) three arm rock drilling rig is mainly used for excavation and construction operations in tunnels, mines, and other underground engineering tunnels and tunnels. It can ...

A water tank trolley, also known as a water cart dolly or cart, is a device designed to facilitate the easy movement of heavy water tanks or containers. These trolleys are particularly useful in ...

Applications CYTJ45 Mining Hydraulic Drilling Vehicle is suitable for excavation of small and medium-sized lanes and tunnels in metal mines and underground projects. It has an advanced ...

HFJ33 underground drilling is suitable for road, railway, hydropower and other underground engineering and tunnel construction. Equipped with three heavy-duty drill arms and a service ...

Our company's products have served multiple highways, railways, water conservancy projects, such as the Plateau Railway, Chongqing Kunming High Speed Railway, ...

It can perform operations such as drilling and blasting holes, anchor rod holes, slotting holes, installing explosives, anchor rods, air ducts, etc., with a maximum coverage area of 180m².

The Trolley Mounted Drilling Rig is ideal for water well drilling application in rock formation. Thanks to its simple and compact design, excellent performance, ...

The intelligent three-arm rock drilling rig developed by Jiangxi Xintong is based on the positioning technology of tunnel construction equipment, 3D reconstruction technology of tunnel contour, ...

A compact and easy-to-use 14-liter constant pressure water tank. Ideal for concrete cutting, core drilling and grinding concrete. Provides constant water flow without the use of a pump, battery ...

The self-developed and produced CMJ1-14 (DT1-14) crawler-type single-arm excavation trolley is used for blasting holes and bolt holes in roadways, tunnel ...

Xintong trolley rock drill water tank

After years of development and accumulation, our main products include tunnel boring machines, arch anchor spraying trolleys, arch anchor trolleys, drilling arch trolleys, arch ...

TANK specializes in the research and production of rock drilling tools, including PDC drill bits, Tricone Bits, DTH hammer, DTH drilling bits, Drill pipes, PDC ...

A compact and easy-to-use 14-liter constant pressure water tank. Ideal for concrete cutting, core drilling and grinding concrete. Provides constant water ...

CyTJ45/2 is a double-arm full-hydraulic drilling trolley for tunnels and mines. It can cover an area of 45m². It adopts hydraulic control mode and is equipped with heavy drilling arm and RN ...

At Big Sky Flattanks, we manufacture well-drilling flattanks made by experienced drillers and welders, just for you. Whether you're looking for a rig tender, ...
